

Eickhoff experience has no substitute

Shearer Loader SL 750

The record production rates mined with Eickhoff SL 300 and SL 500 shearer loaders consequently made the world's high performance coal mines demand a shearer loader combining the SL 500 power with the slim SL 300 machine body.

The all-new Eickhoff SL 750, with a machine body just slightly higher than that known from the SL 300, features a cutter motor power which was formerly only available with the SL 500.

The positive feedback from the first installations of the Eickhoff SL 750 at high performance mines in the USA back in 2006 and since in other major coal producing countries have fulfilled all expectations.

The SL 750 achieves higher production rates more economically.

Technical Details

Operating Range	1,8 - 4,8 m
Voltage / Frequency	3300 V / 50 Hz
Total Installed Power	1894 kW
Cutting Drum Speed	32 - 50 rpm
Max. Haulage Speed	51 m/min
Total Weight	70 - 80 t
